a EarBud Headset

81060

The JABRA EarBud is the most cost-effective, JABRA solution for mobile phone users wanting a hands-free alternative at a value price. The JABRA EarBud uses the patented EarGel for a secure fit and contemporary styling. Unlike the EarSet and Ear Boom solutions, the EarBud integrates the microphone as part of the cable leading from the ear to the phone. Its improved circuitry eliminates the buzz often found in lower quality solutions.

Jabra EarBud Headset

467078

The JABRA EarBud is the most cost-effective, JABRA solution for mobile phone users wanting a hands-free alternative at a value price. The JABRA EarBud uses the patented EarGel for a secure fit and contemporary styling. Unlike the EarSet and Ear Boom solutions, the EarBud integrates the microphone as part of the cable leading from the ear to the phone. Its improved circuitry eliminates the buzz often found in lower quality solutions.

Jabra EarBud Headset

467078

The JABRA EarBud is the most cost-effective, JABRA solution for mobile phone users wanting a hands-free alternative at a value price. The JABRA EarBud uses the patented EarGel for a secure fit and contemporary styling. Unlike the EarSet and Ear Boom solutions, the EarBud integrates the microphone as part of the cable leading from the ear to the phone. Its improved circuitry eliminates the buzz often found in lower quality solutions.

Hands Free Kits, Mics, Headsets [262-09]

Ericsson HCA-10 Advanced Handsfree Kit

435090 444003

ERICSSON Advanced handsfree Kit for the son T28. Features stylish design, voice-dialing adjustable holder, full duplex mic, automatic tic tuning and full connectivity.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)
435090 1 EACH	Sony Ericsson Mobile Comm. DPY901222 1 Year	Handsfree Kit engineered for superior sound quality. Reduces engine and road noise up to 75% when on a call. Also, supports voice control features, and Simple Music Mute silences the car radio when you receive a call. Professional installation required. There are two options for installation of the HCA 20. One uses a phone specific cradle and another uses a generic cradle. The generic cradle allows different phones to use the car kit without changing anything in the car. Using the phone specific cradle, the following products/accessories must be purchased to use the HCA-20. Car Holder: HCH-21 (T28, T39), HCH-27 (A2218z, A2228z, R300), HCH-22 (R380, R520m), HCH-29 (T60, T61), HCH-28(T68). System Cables: HCC-11 (T28, T39, R380, R520), HCC-12 (A2218z, A2228z, R300), HCC-20 (T60, T61, T68). As an alternate set up, the following phones can use the generic car holder (HCH 30) with the generic system cable (HCC 30) in conjunction with the HCA-20: A2218z, T28, T39, T68, R300 and R380.	130.80 2.55 1.16
444003 1 EACH	Sony Ericsson Mobile Comm. DPY901047 1 Year	The External Handset HCE-10 lets you have private calls in your car without removing your phone from its holder. Requires the Advanced Vehicle Handsfree HCA-20 that is sold separately.	135.20 0.8 0.36

Hands Free Kits, Mics, Headsets [262-09]

on HCA-10 Advanced Handsfree Kit

421351 481396 486382 435090

ERICSSON Advanced handsfree Kit for the Ericsson T28. Features stylish design, voice-dialing, adjustable holder, full duplex mic, automatic acoustic tuning and full connectivity.

Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Sony Ericsson Mobile Comm. RLC509401/02 1 Year	A microphone on a flexible gooseneck that makes it easy to access and further enhance sound quality.	25.00 1 0.45	15.98 15.86 15.77
Sony Ericsson Mobile Comm. DPY901323 1 Year	Car Holder that is easy to adjust to different phone models. A basic handsfree solution that keeps the phone firmly attached and close at hand for increased traffic safety. Can be connected to Advanced Car Handsfree with use of the system cable HCC-30. Quick and easy installation.	23.00 0.28 0.13	14.67 14.56 14.48
Sony Ericsson Mobile Comm. DPY901328 1 Year	This cable is required to attach the Advanced Car Handsfree HCA-20 with the Car Holder HCH-30. Should be installed by a qualified professional.	18.00 1 0.45	11.15 11.06 11.00
Sony Ericsson Mobile Comm. DPY901222 1 Year	Handsfree Kit engineered for superior sound quality. Reduces engine and road noise up to 75% when on a call. Also, supports voice control features, and Simple Music Mute silences the car radio when you receive a call. Professional installation required. There are two options for installation of the HCA 20. One uses a phone specific cradle and another uses a generic cradle. The generic cradle allows different phones to use the car kit without changing anything in the car. Using the phone specific cradle, the following products/accessories must be purchased to use the HCA-20. Car Holder: HCH-21 (T28, T39), HCH-27 (A2218z, A2228z, R300), HCH-22 (R380, R520m), HCH-29 (T60, T61), HCH-28 (T68). System Cables: HCC-11 (T28, T39, R380, R520), HCC-12 (A2218z, A2228z, R300), HCC-20 (T60, T61, T68). As an alternate set up, the following phones can use the generic car holder (HCH 30) with the generic system cable (HCC 30) in conjunction with the HCA-20: A2218z, T28, T39, T68, R300 and R380.	130.80 2.55 1.16	87.37 86.71 86.19
Sony Ericsson Mobile Comm. DPY901047 1 Year	The External Handset HCE-10 lets you have private calls in your car without removing your phone from its holder. Requires the Advanced Vehicle Handsfree HCA-20 that is sold separately.	135.20 0.8 0.36	90.29 89.62 89.07

The Tether

419144

The Tether provides a better way to carry portables. It works with all the Clip Tabs to secure portable devices for maximum convenience. Adjust the volume, look up a phone number, change songs - all without removing it from the belt clip. Versatile and handy!

- Unique locking tab allows portable devices to rotate 360 degrees
- Easily adjustable strap length
- Quick disconnect feature
- Tough, high-quality nylon strap and cord
- Works with Ultra Clip Tabs - one (1) adhesive tab included
- Tab attaches with strong but removable 3M acrylic bonding adhesive
- Device must be turned 90 degrees to install and remove Ultra Tab
- Scored tab fits almost any convex or concave surface
- Ultra Tab can be screwed or riveted to almost anything (screws and rivets not included)
- NOTE: Use caution wearing The Tether around machinery and unhook at least the bottom when driving.

TECHNOLOGIES®

30-Day Risk-Free Purchasing

Try TESSCO's risk-free purchasing program, designed to give you the opportunity to explore new products without risk.

If for any reason, you are unhappy with a purchase, you may return it within 30 days of receipt. TESSCO will give you a money-back refund or full credit toward another purchase.

TESSCO's 30-day return policy extends to all items except special order or value-added items, which are eligible only if defective.

Qualifying for the risk-free purchasing benefit is easy:

1. Return all items within 30 days after receipt.

2. Return all items in original condition and packaging, freight prepaid.

3. Enclose a return form (found on the back of your packing list) with all items.

After following these three simple steps, TESSCO will award you a refund or full credit toward a future purchase.

Take advantage of TESSCO's 30-day risk-free purchasing today and explore new products with confidence.

On one hand, you've got 28,000 wireless products at your fingertips.

On the other hand, you've got 28,000 wireless products at your fingertips.

All the great products plus supply chain solutions available in this book are also available on line at **www.tessco.com**.

KENWOOD COMMUNICATIONS

Sell the high-quality, high-value on-site radios, the Kenwood ProTalk® series.

Kenwood ProTalk Radios

Kenwood's ProTalk series of portable business radios are the cost-effective solution for your on-site communications requirements. Rugged and dependable ProTalk radios increase productivity in a wide-range of applications by managing time, personnel and materials efficiently. They can also enhance the security of your staff and facility. Available in a 1-channel or 2-channel VHF model with pre-loaded "dot" business frequencies, or in a 1-channel or 2-channel UHF model with pre-loaded "star" business frequencies, all ProTalk models feature 2-watts of power for up to 5 miles range. ProTalk channels and the 38 privacy codes are programmable by the user. FCC licensing information is included with the radio.

- Die-cast aluminum chassis and polycarbonate case provide exceptional strength for rough handling
- Meets military specifications for temperature extremes, vibration, shock, humidity, dust and light rain
- Small and lightweight (approximately 11 oz. and 5 inches in height)
- Simple operation with rugged controls
- Brass reinforced SMA antenna connector
- Compatible with other brands of "dot" and "star" frequency radios
- Includes slide-on rechargeable battery, desktop charger and spring loaded belt clip
- Two-year warranty

rola High Power Spirit Radios

475160

The Spirit High Power Performance radios are designed to meet the demands of the modern workplace. They are compact, durable and designed to work at the touch of a button. Pre-programmed for quick access to ten channel/PL code combinations or can also be custom programmed. Standard features include automatic channel scan,coded squelch, hi/lo power button and multi-function backlit LCD dsiplay.

Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)

Radios-LMRS [229-12]

ultiplier

Multiplier, offering an extensive line of NiCd, NiMH, Li-Ion, and Factory Mutual-approved, intrinsically safe batteries for standard, custom and OEM applications, including two-way, cellular and PCS.

nd Syn-Tech Bantam Mobiles

The Bantam line offers rugged performance at a reasonable price. 20 channels, each with CTCSS, DCS, or CS. 12.5, 25, or 30 kHz channel spacing programmable by channel. Wide band operation. 2.5 kHz channel steps. Fast, 40 channel/second scanning. 25 Watt output. Time-out-timer, Busy lock-out.

Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Midland 70-1337B 1 Year	VHF Bantam radio. 150-174 MHz. 15 to 30 Watts adjustable output. 1.1 lbs. 1.6"H x 6.3"W x 3.9"D. Includes wiring harness, bracket, microphone.	399.95 6 2.73	399.95 399.95 399.95

Midland Bantam Mobile Accessories

Accessories for the Bantam series of mobile radios enhance their utility and expand their capabilities.

DTMF Decoders [120-24]

ninature DTMF decoder

Selectone subminature DTMF decoder for selective calling and remote control via a wire line or radio. Uses surface mount and uP technology. Small size 1.5L x .85W x .25H is made for the smallest two way radios. No restrictions on the use of repeated digits in the address providing 250,000,000 unique addresses. Group/ All call, Radio Kill, Call Alert Tone, Transpond Acknowledge and remote reset are other additional features. Requires ST954 cable and ST809PM (windows or DOS software).

Manufacturer Mfg. P/N Warranty	Dimensions	Sequence	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Comm. Specialists ST809B 1 YEAR	1.5Lx.85Wx.25H	1 to 7 repeatable digits	95.95 0.06 0.03	59.95 58.46 57.56

Sub-Audible CTCSS [120-35]

o-mini Programmable CTCSS

Encoder generates CTCSS tones and connects to the transmit circuitry of a radio transceiver. Offers high frequency accuracy and stability. Tone output level is adjustable.

Manufacturer Mfg. P/N Warranty	Tone Selection	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Comm. Specialists SS-64 1 yr.	A total of 64 subaudable tones can be selected. Non-standard programming is accomplished by soldering jumper wires.	45.85 0.02 0.01	28.95 28.38 27.51

le CTCSS Encoder

Self-contained encoder connects to a point before the modulator stage of a radio. Unit is enclosed in a high impact plastic case. Includes mounting bracket and hardware.

Manufacturer Mfg. P/N Warranty	Tone Selection	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Comm. Specialists TE-32 1 yr.	32 group A tones from 67.0 to 203.5 Hz. 12 are chosen with a rotary switch, toggle switch is used to select between upper and lower range tones.	79.10 0.1 0.05	49.95 48.96 47.46
Comm. Specialists TE-32D 1 yr.	32 group A tones from 67.0 to 203.5 Hz. 12 are chosen with a rotary switch, toggle switch is used to select between upper and lower range tones. LED display shows tones.	169.45 0.7 0.32	107.00 104.86 101.65

ammable CTCSS Encoder/Decoder

Device provides connections to squelch circuits to unmute receiver on decode, and generate tones once push-to-talk is activated. Time-out timer limits transmissions to set length. Busy tone produced for time-out or busy channel conditions. Features high pass filter to remove tones from recovered audio, monitor hookswitch connections, squelch tail elimination, adjustable output level and flying leads.

Manufacturer Mfg. P/N Warranty	Tone Selection	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
Comm. Specialists TS-64 1 yr.	37 EIA and 27 non-standard tones over range of 33.0 to 254.1 Hz. Jumper selectable.	87.05 0.1 0.05	54.95 53.86 52.21
Comm. Specialists TS-64DS 1 yr.	37 EIA and 27 non-standard tones over range of 33.0 to 254.1 Hz. Dip switch programmable.	91.80 1 0.45	57.95 56.80 55.06

Plug-In Encoders/Decoders [120-36]

Programmable CTCSS Encoder/Decoder

Unit connects to transceiver to unmute audio on decode, and to generate CTCSS tones. Features high pass filter to remove tones from received audio, output to monitor hookswitch. Can be adapted to allow tone changes from a remote Icoation. 32 EIA tones from 67 to 203.5 Hz are dip-switch selectable. Non-standard tones can be programmed with HHP-1 programmer.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Radios	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)

Digital Coded Squelch [120-37]

DCS Encoder/Decoder

Encoder/decoder connects to the squelch circuits of radios. Generates DCS code on activation of push-to-talk, and unmutes on receipt of proper code. Features squelch tail elimination, adjustable output level and switchable polarities. Provides high pass filter and microphone hang-up input. Connects to equipment via nine color-coded wires.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Tone Selection	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
56256 1 EACH	Comm. Specialists DCS-23 1 yr.	All 512 octal codes (23-bit Golay at 134.4 Hz rate) are jumper selectable.	94.95 0.1 0.05	59.95 58.76 56.96

Shared Repeater Panels [120-50]

LTR Trunking Repeater Manager

For "dispatch only" channels on any Logic Trunked Repeater (LTR). The LT-4200 is fully self contained and includes Logic Control Unit, Validator, Billing Data Generator, and System Manager. Features: Two line/16 character LCD displays ID code of current user, RX/TX status, repeater status, dip switch settings, error codes, repeater status, built in test and more. RS-232 ports, cloning, CW ID, alarms, 20 channel maximum, 250 ID's per channel, 5000 ID's per system. Includes programming software and instruction manual.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Tone/Users	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
21603 1 EACH	Connect Systems LT-4200 1yr	LTR Trunking Repeater Manager.	781.55 5.5 2.5	733.87 672.13 654.94

Shared Repeater Tone Panel

86758

Full-featured panel acts as a tone and control interface between receiver and transmitter of a repeater. Unit records time and hit accumulation per subscriber and generates airtime loading graphs. All user data output and programming is via DTMF touch tone phone or other input/output. Lots of features including LED mode indicators, carrier access mode, remote or local enable/disable, tone/code regeneration, 19" rack or desk top versions, low power lights.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Tone/Users	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
86758 1 EACH	Comm. Specialists TP-3200RM-B1 1 yr.	51 CTCSS tones, 106 DCS codes, accommodating 157 subscribers, RS-232 Input/Output data port, 19" rack	443.30 4.35 1.98	279.95 274.36 265.96

Paging Encoders, Receivers and Modems [120-52]

Desktop Paging Encoders

Desktop encoder offers a 1000 call paging capacity and a 100 call mode. Tones or codes are chosen with the built-in keypad and settings are stored in non-volatile memory. LED display shows selected pager codes, and lamps indicate operating modes. Features automatic push-to-talk keying of transmitter, auto microphone muting, single key repage, test tone and selectable pre-transmit delay. Pager codes used can be output to a non-RS232 serial printer.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Tone Selection	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
65723 1 EACH	Comm. Specialists PE-1000A 1 yr.	Two-tone sequential format. Handles any combination of tones from Motorola groups 1-6,A,B,Z and GE A,B,C.Compatible with QC II, 99, 1+1. Features group call.	356.20 2.3 1.05	224.95 220.46 213.71
90902 1 EACH	Comm. Specialists PE-1000D 1 yr.	Factory programmed with chosen tones. Specify frequencies and tone group placement. Example: if GEA tones are unused, have new tones put in this group.	395.80 1 0.45	249.95 244.96 237.46

ANI/Status Systems [120-55]

ANI/ENI Encoder

Encoder generates ANI (automatic number identification) series on activation and/ or release of push-to-talk. ENI (emergency NI) can be generated by grounding line. Codes recognized by separately purchased control station decoder. Features mic mute during code generation and time out timer with alarm to limit air time and stuck mic. Adjustable values include ANI transmit occurrences, ENI re-transmit time, open mic time after ENI, and signal level/speed (.5-20 dps). *Programmed with your PC using ST804PM Software and ST954B Cable.

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)

ANI/ENI Decoder with Display

Desktop decoder interprets incoming tones and shows sequence on 8-digit alphanumeric LED display. Stores eight codes in non-volatile memory. Features internal buzzer for ANI/ENI, external alarm output, time/date recorder, and speaker muting to remove tones. Programmable settings include ANI/ENI prefix digit, delay digits to accomodate other signalling, display blanking timer, and output data format. Includes keypad for programming, and parallel and serial ports to interface with printer or computer. Connects to radio via 7' of 8-cond. cable

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
33008 1 EACH	Comm. Specialists ST888 5 yrs.	DTMF, decodes 1-8 digit sequences with all 16 chars.	798.40 2.36 1.07	499.00 486.53 479.04

Morse Code Identifiers [120-80]

Are you certified to sweep RF lines?

Line Sweeping and Spectrum Analysis. . . . . page 14

Cable System Analyzers. . . . . page 14

Automatic Morse Station Identifier

Morse code generator allows a message to be cr manually or automatically. Manual mode triggered push-to-talk, carrier operated relay or other sour Auto mode generates code on selectable interval Code is generated by switchinga continuous wave either internally or via PTT. The programmable fe include transmit interval, delay time, code speed, tone frequency, and courtesy tone to signal end c transmission. Meets FCC identification requireme

Part No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Format	List ($) Wt. (lbs) Wgt. (kg.)	T
94150 1 EACH	Comm. Specialists ID-8 5 yrs.	1-8 messages depending on length, max. 216 characters. All 46 morse symbols are available. Codes programmed using included keypad, stored in non-volatile memory, and jumper selectable.	110.80 0.1 0.05	6 6 6

Voice Encryption Modules for Radios [122-10]

High-Level Mini Encryption Module

Board generates and decyphers encrypted signals selects transmit mode-either clear or encryption. received signals, module will recognize signal type automatically select clear or decryption mode. Cl non-encryption radios function normally in syster all radios operating in secure mode must have mo Mode and stored codes selected using PTT, monit other switch. Key-up delay and signalling compatil Requires ST954 or ST954B cable and ST25PM so ware.

Eliminators/ Cradles- Two Way Radios [300-96]

2-Way Battery Eliminators

Multiplier's "Performance Enhancer" is a no heat switching power supply eliminator that replaces the battery and allows unlimited talk-time. It provides DC power to the radio with a 10' coiled cord when plugged into 12 or 24VDC source.

Two-Way Battery Conditioners [306-10]

Multiplier, offering an extensive line of NiCd, NiMH, Li-Ion, and Factory Mutual-approved, intrinsically safe batteries for standard, custom and OEM applications, including two-way, cellular and PCS.

ACT iCHARGE charger/conditioners

53062

ACT iCHARGE incorporate ACT's proprietary DEW technology, which uses a micro-processor and patented algorithm to read the chemistry of the individual NiCd, NiMH or LiIO battery and respond with a precise, maximum-capacity, conditioning charge every time. This eliminates the need for expensive battery maintenance programs. Deep conditioning is performed at the touch of a button. The (optional) IGUAGE provides a LCD display of the batteries capacity. Not compatible with TBC series adapters.

- MUST ORDER RADIO SPECIFIC iCHARGE SERIES ADAPTERS SEPARATELY.

iCHARGE In-Vehicle Charger

445133

The iCHARGE i15VC in-vehicle charger is ideal for emergency response vehicles and mobile communication units. You can have on site the same benefits as the desktop iCHARGE system. The i15VC is available with a rette lighter plug or can be hard-wired into the electronics of any vehicl NOTE: SUPPORTS ALL ACT ADAPTERS FOR 7.2V TWO-WAY RADIO BATTERIES.

- Full charge in 45-90 minutes
- Charges NiCD and NiMH
- 12- and 24-volt input
- Patented DEW technology
- User friendly - green light = GO
- Maintenance mode upon reaching charge comple
- Easily mounts in most vehicles
- Interchangeable adapters
- SUPPORTS ALL ACT ADAPTERS FOR 7.2V TWO WAY RADIO BATTERIES

AdvanceTec 2 Way Radio Charger

92015

AdvanceTec conditioning charger conditions/ charges NiCd and NiMH in less than one hour using a high charge current with regularly spaced negative current pulses. This method results in low heat generation and higher charge acceptance. Charge termination is determined by the negative Delta V method so no overcharging occurs. The unit will charge to 100% then switch to maintenence mode. Instant Fault Detection technology detects faulty radio batteries in seconds. Includes AC adapters and DC adapters on most models*.

AdvanceTec IFD Multi-Charger

447023

The IFD Bank is a convenient multi-unit Reconditioning/ Charger for both 2 way & cellular batteries. Instant Fault Detection technology detects faulty radio batteries in seconds. It will simultaneously condition, charge and rejuvenate up to 4 of the same batteries in approximately 1 to 1 1/2 hours. The Bank will never overcharge and will always maintain 100% charge. Increases useful battery life by 200%-300%. Excellent for frequent users. Also available for cellular phones. Operates on 110/220 VAC. Made in the USA. .

Battery Analyzers/Conditioners [307-10]

W&W MANUFACTURING CO.
WHERE QUALITY IS #1

W & W Manufacturing Co. announce their replacement battery for the M/A-Com Jaguar Radio. Available in 1700 mAh NiCd version and 2700 mA high-capacity NiMH version.

AdvanceTec Analyzer/ Conditioner

28591

AdvanceTec Pulse Analyzer Conditioner for NiCd and NiMH batteries. Simple to operate. No buttons to press. Simply place the battery on the analyzer. The bat is conditioned through a programmed discharge followed by a rapid charge and diton utilizing AdvanceTec' s patented negative-pulse technology. Battery capaci shown on the digital display. Available as a single station, four station or hybrid station analyzer and three station charger.

iTECH iQpac Analyzer Charger

If you use a personal radio or cellular phone and rely on batteries, you need to know and predict battery performance. ITECH's iQpac personal analyzer charger is the easy way for you to tell whether or not your battery is good; the iQpac LCD shows the battery's capacity - you can see how your battery will perform by comparing actual capacity against battery specifications. The iQpac features:

- "Quick Analyze" that dispalys battery capacity while charging
- "Spec Analyze" that tests capacity for warranty returns
- "Condition" that restores lost capacity
- Selectable negative pulse conditioning or constant current charging with three selectable rates (500/ 1000/1500 mA)
- Supports NiCD, NiMH, and Lithium Ion chemistries
- Lock settings with free Windows program
- PURCHASE iQpac BATTERY SPECIFIC ADAPTERS SEPARATELY

W&W Battery Analyzer/Conditioners

W&W Manufacturing Company battery analyzer/ conditioner/ charger features independent charge and discharge rates per cup which allows the batteries to be properly analyzed and conditioned. Uses end of charge detection of peak voltage/time for NiCd and NiMH batteries and two-step fast charge/ minimum current/ time for Lilo. Single button operation initiates all modes of operation. For use with NiCd, NiMH, sealed lead acid and certain Lilo batteries. Includes PC serial port. Software is sold separately.

W&W Rapid Analyzer I

496310

W&W Manufacturing Company stand-alone single position rapid analyzer features:

- 3-Minute analyzer/ conditioner/ battery tester. Charges and discharges. Shows battery capacity when fully charged.
- Easy to operate with one button.
- Each cup easily snaps in and out and is compatible with NiCD, NiMH, Li-Ion and Li Polymer batteries. No need for separate cups for different chemistries.
- RS32 (DB9 female) computer interface ready.
- DB9 male serial printer ready.
- PURCHASE BATTERY SPECIFIC W&W MANUFACTURING R SERIES ADAPTER CUPS SEPARATELY

ır-Mike EM-200

89271

Designed in response to requests from law enforcement and military personnel, the Telex EM-200 provides discreet, reliable communication that is critical when lives are on the line. Transmission and reception are accomplished through a small transducer mounted in the ear. Vibrations emitted through the ear canal during speech are amplified, transmitted over a portable radio, and broadcast back through the transducer directly into the ear. The adavantage is one wire is used for transmitting and receiving. EM-200 includes:

- Transducer
- Black earpiece cord with LEMO plug
- 1.5V AA battery
- PURCHASE RADIO INTERFACE CABLES SEPARATELY

- switch
- hone PTT jack
- ow switch
- se attenuation kit

PTT/VOX Adapters [325-30]

PTT adapters-Telex headsets

The Telex PTT adapter mobile radio headset interface module includes a Nexus TP-120 headset jack, AA battery powered microphone amplifier with gain control, PTT switch, remote PTT jack and belt clip. SKU 15940 is used with all Ericsson radios. Requires Telex interface cable.

Telephone Interconnect [100-13]

peater Maker Plus

Unit interfaces two transceivers to provide repeater operation. Programmable parameters, set with dip switches, include courtesy tone, time-out-timer, and repeater hang time. User can also select transmit audio and repeat audio level. Built in auxiliary relay can be activated/ deactivated via a DTMF code. Built-in four user (four tone) CTCSS encode/ decode panel.

No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
42 CH	CES Wireless RM20 1 yr.	Half or full duplex	310.00 2.45 1.11	186.00 179.80 176.70

ephone Interconnect

Versatile simplex and half-duplex patch. High tech microprocessor controlled telephone interconnect that can be installed into nearly every repeater/transceiver on the market. Features: DTMF regeneration, 25 speed dial locations, remote "over ther air" programming via DTMF, simplex enhanced sampling, simplex VOX control with VeraTec, 10 digit connect/disconnect code, automatic setup, user programmable CW-ID, last number redial, call limit timer, time out timer/ warning beeps and lightning protection in a small 1.5 x 4 x 4

No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
47 CH	CES Wireless 4700VP 3 yr	Simplex or half-duplex operation. Two foot cableb with DB9 connector included.	292.00 2.75 1.25	175.20 169.36 166.44

l/Half Duplex Interconnect

Converts your duplex base station, repeater, or dual band transceiver into powerful Full Duplex (or Semi-Duplex) mobile radio telephone system. Built-in repeater maker turns system into an instant repeater, if needed. FCC/DOC registered units. Built-in programming keyboard allows for easy user selections: 800 dial-CS/CTCSS operation, user Morse ID, user set timers, remote base and DTMF select g, ringout, line in-use inhibit and lots of other features. Tabletop housing with LED status tors.

No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
21 CH	Connect Systems CS-800 1 yr.	Full/Semi-Duplex Interconnect, Repeater Maker, 90#'s speed dial, last # redial, 5 press auto-dial, regenerated tone/pulse dial.	448.00 3.5 1.59	420.68 385.28 375.43

K Simplex Interconnect

Deluxe microprocessor based fully auto VOX simplex interconnect can be operated simplex or thru conventional or trunked repeaters. Built-in 1/2 sec. delay (EVD) assures that base transmitter to mobile receive path is ready before voice is sent. Remote base use. Programming for over air touchtone, remote DTMF, key- pad. Lots of flexibility for ring out, channel monitoring, line detect, hook flash, refresh, , COS input, and more. Desktop version with LED displays.

No. Qty/Uom	Manufacturer Mfg. P/N Warranty	Description	List ($) Wt. (lbs) Wgt. (kg.)	T-1($) T-2($) T-3($)
4 H	Connect Systems CS-900 1 yr.	Voice activated Simplex Interconnect, 90#'s speed dial, redial, 1-5 digit access, 5 press dial, toll restrict, MOV protect, desktop.	448.10 3.5 1.59	420.75 385.35 375.50

Repeater Controller & Interconnect

41695

Provides repeater and duplex interconnect for private systems. Repeater features: 154 CTCSS/DCS codes, cross tone, COR, DTMF- DTMF regeneration, mobile to mobile calling, 99 memory speed call repeater enable/disable, stuck mic timer, courtesy tone. Interconnect features: half/full duplex, 1-6 digit access/override access code, 99 speed-dials, last number redial, busy/dialtone disconnect, six ringing alerts, ringout 1-9 rings, 6 toll restricts, 16 toll overides, DTMF or Pulse dialout, four digit front panel display, status LED's, aux. relay.

41695 1 EACH	Connect Systems 8300R 1 yr.	Full/Half-Duplex Interconnect/Repeater Controller. 154 CTCSS/DCScodes, 99 memory speed caller. 19" rack mount.	646.95 5 2.27	607.46 556.36 542.12

MicroPatch Multi-Mode Interconnect

40446

MicroPatch provides user selectable operating modes. Features: Vox control station/ enhanced sampling interconnect, semi-duplex interconnect/ with privacy, repeater controller, telephone remotebase, selective calling/paging, talkback paging, Morse Station ID, 90 phone number speed dialer, last number redial, 1-800 dialing, call waiting, selective calling, DTMF/Pulse dialing, Auxilary relay software. DPL/CTCSS Operation, hook flash, built-in keyboard and display for programming, front panel LED's.

DC Remote Controls [100-80]

CPI Telephone Style DC Remotes

Phone-style remote uses DC currents to control a distant radio. Features adjustable volume, front panel/handset push-to-talk, modular connections and RX compression amp. New features include off-hook monitor, parallel TX indicator, line continuity sensing, cross muting, 2W audio, trunking mode, and modern housing. Purchase termination panel separately. Black units are available.

52358 1 EACH	Gai-Tronics XAC0004A 1 Year	IAPS programming cable for ITR2000, ITR2300, IPE2500, ITI6000, IRC3000, ITD2000A, or ITD3000A. Used with XAC0006A or XAC0007A software.	42.00 1 0.45	3 3 2

DC Remote Termination Panels [100-81]

CPI DC Termination Panels

Termination panels interface DC remote controls to th radios. Features transmit and receive audio amplificatio adjustable input/output levels, and modular connection phone line. DTP panels combine features of older DP DCO series panels. Passes trunking status tones.

Tone Remote Termination Panels [100-84]

l Tone Termination Panels

11466 51104

Termination panel connects to a radio to interface a remote control. Tones used include 2050 Hz monitor and 2175 Hz security/TX hold tone. Features notch filter for key tone, timed or latching monitor, and variable levels to handle different radios and line conditions. Uses modular connections to 600 ohm voice grade path and screw terminals for radio.

Specialty Remote Systems [100-86]

GAI-Tronics ICP9000 Navigator

The ICP9000 NAVIGATOR is a compact, feature-rich r dispatch console capable of supporting multiple dispatc locations in a modern Graphical User Interface (GUI) f All pushbutton and indicator functions are located on interactive CRT display supporting touch-screen or mo operation. A minimum 19" touch screen is recommend (not included). It is capable of controlling up to 12 con tional base radios and supports multiple dispatcher loc The Master control Unit (MCU) can be stored beneath desk or rack mounted. In addition to the console's standard features, a variety of options field install kits are available to provide enhanced control of the radio system.

- Graphical User Interface with Custom Profile Settings
- Touch-Screen, Wand or Mouse Operation
- Available in 4, 8, and 12 channel control
- 4 channel expansion kits support system growth
- 4 channel expansion kits support system growth
- Supports tone, DC, and E&M control types
- Includes paging encoder for individual or grou ing
- DTMF decode for automatic number identific
- Provides telephone interface capability
- Supports headset, gooseneck microphone, des and footswitch
- Easy-to-use Windows-based programming app tion
- Requirements: Dedicated PC with Windows 2 128MB RAM, P3 Processor, 2 GB Hard Drive, Card, 32MB Video Card.

Remote-Motorola CDM1550/CDM1550LS

The MCR211A is a telephone style remote control unit designed for use with Motorola's CDM1550 and CDM1550LS radios. The remote features:

- LCD display for 9-character alpha channel alias
- LCD display for channel and zone indications
- Channel and zone up and down buttons
- PTT indicator
- On-hook PTT capability
- Monitor button and indicator
- Intercom button
- Scan button and indicator
- Privacy feature
- Speaker volume control
- Use only with MCP200C termination panel
- Black units are available
- NOTE: When connected to radio, radio becomes dedicated to remote operation.

Remote-Conventional Radius/Maxtrac

The MCR220 is a console style remote control unit, with desk microphone designed for use with the Radius 200 series, GM300, SM120, M1225, M1225LS and Motorola's Maxtrac 300 conventional radios. The remote provides LED displays for channel indication, channel up and down buttons, PTT indicator, on-hook PTT capability, monitor button and indicator, intercom button, scan button and indicator and speaker volume control. The MCR220 allows incoming calls, as well as transmissions made using the radio microphone, to be received through the speaker in the remote. Transmissions made from a remote are heard on all parallel remotes. The MCR220 allows for intercom capability between parallel remotes. The channel display and indicators on all remotes mirror that of the radio. Black units are available.

Remote Cable and Footswitches [100-88]

dio Accessory Box

10581

69540

69585

69595

Audio Accessory Box allows all GAI-Tronics remote desksets to connect to hands-free accessories including headsets, desk microphones, gooseneck microphones and footswitches. It uses industry standard plug-in connections. Desk set PTT and monitor can be initiated from the paddle on the desk mic or footswitch. Provides the flexibility to constantly change microphones as dispatchers change shifts and preferences. Radio interconnect ports also allow it to connect directly to most Motorola or Kenwood radios. The telephone interface (option, SKU 69565) allows dispatchers to communicate over both a telephone and GAI-Tronics deskset with a single headset. Compact size easily fits into most set-ups. The top cover can double as a bracket for mounting the unit under a desktop.

ron Portable Inverters

22548 55126

Astron inverters provide continuous, portable AC power from the 12-volt DC socket in your vehicle, boat, or RV. Designed for recreational and mobile office applications, these inverters provide reliable power for work or leisure. They feature:

- DC input to 115 VAC output
- ated output
- Temperature and overload protection

table Inverters

38117 76510 427061

Lite PowerVerter models provide AC power from a 12VDC source via cigarette lighter on PV140 (38117) and PV300 (76510) and battery clips on PV500 (427061). Packing reli- echnology into a durable, lightweight housing, they provide solutions for all mobile power ations. PowerVerters feature:

- sinusoidal phase-corrected waveform
- 90% efficiency
- attery alarm / automatic shutdown
- Easily-replaceable external fuses
- Durable aluminum housing
- Illuminated on/off switch

Heavy Duty Inverters

464014 426090

Tripp Lite PowerVerter models provide AC power from a 12VDC source including your car, truck, RV or boat. Packing reliable technology into a durable, lightweight housing, they provide solutions for all mobile power applications. PowerVerters feature:

- Quasi-sinusoidal phase-corrected waveform
- Up to 90% efficiency
- Fans allowing cool, continuous operation
- Low battery alarm / automatic shutdown
- Easily-replaceable external fuses
- Durable aluminum housing
- Illuminated on/off switch

Xantrex Heavy Duty Inverters

427038 68191 46773

Xantrex inverters provide continuous, portable AC power from any 12-volt DC source in ing your vehicle, boat, or RV. Designed for recreational and mobile office applications, these inverters provide reliable power for work or leisure. They feature:

- 12VDC input and 115VAC output
- Regulated output to protect sensitive equipment
- Automatic shutdown
- Totally silent operation
- Easy installation

Modified Sine Wave Peak Inverters

74870 74907

PowerVerter Plus models feature 200% peak ou for motor-driven equipment. LEDs monitor batt and load condition. High-efficiency operation co serves batteries for longer runtimes. All models have frequency-control, modified sine wave outp and automatic voltage regulation to provide ope ing stability for sensitive equipment. The PV2000 (74907) and PV2400FC (74909) are compatible the APSRM (413011) for remote control.

e Sine Wave Inverters

449165 482388 418131

ex pure sine wave inverters deliver clean AC current for home electronics, marine and notive applications. These units feature:

- attery alarm
- oad protection
- circuit protection
- Reverse polarity protection
- Over/under input voltage protection
- Over temperature protection

Sine Wave Inverter/ Charger

PROsine inverter / chargers provide a clean, regulated output. Offering a revolutionary power to weight ratio, these units feature:

- ine wave output
- oad, short circuit, low voltage, and over-temperature protection
- factor corrected multistage charger
- Built in transfer switch
- Remote control panel and battery temperature sensor

Sine Wave Inverter

The Xantrex PROsine inverter provides clean AC power from DC battery power. Designed for recreational, industrial, and backup power applications the PROsine series is ideal for mid-range loads. The series features:

- ine wave output at 12 or 24 volts
- hable LCD panel for remote monitoring and onal control
- tive DC connection terminals
- Durable chassis with advanced thermal design
- Compact, lightweight

Indoor-Outdoor Generator

471036 493122

xPower indoor-outdoor electronic generators are portable and rechargeable. Designed for recreational and industrial applications they have built-in batteries that provide electric power at construction sites, on camping trips, in the garden, or in the home during power outages with no fuel, no noise, and no fumes. The xPower series features:

- Over voltage protection
- Under voltage protection
- Overload protection
- Thermal protection
- Quiet operation
- Dual AC outlets
- DC power socket
- AC charger
- DC charging cable

Industrial Converters

447162

491179

Samlex industrial DC-DC c verters are designed for hig ciency, high reliability. These converters feature:

- 2:1 input range
- Low cost, high reliability
- High efficiency, low working temperature
- Built in EMI filter, low ripple noise
- Short circuit protection
- Over load/ voltage protection
- 100% full load burn-in test
- ISO-9001 manufacturer

Isolated DC to DC Voltage Converters [090-24]

If you are buying these, you may need:

Automotive Hookup Wire. . . . . .page 1762

ated DC to DC Converters

Isolated DC converters are used when the electronic item and the battery system have different ground references. Provide total electrical isolation between input and output. They permit connection of DC negative ground equipment to positive ground, floating ground and negative ground. Same features as the standard series plus adds total isolation between input and output.

Data, Messaging & Location Systems

A **World-Class** Choice from TESSCO

2:30p.m.

Do you know where you'll be?

Clipboard vs. Laser Scanner		
	Accuracy	1 error in every 1 million characters entered
	Speed	Scans up to 60 times per second
	Efficiency	Fewer errors and faster work reduce administrative costs
Place on the curb any Tuesday or Friday morning	Recyclability	
	Reliability	Lasts up to 14 hours each charge
String not included	Nifty pencil holder	
	Ease of use	Ergonomic design and Windows based application software
	Timely feedback	Data is downloaded into applications in seconds
	Increased profitability	All of the above advantages contribute to cost savings

Symbol® P370

If you could do the same amount of work, but in a fraction of the time, why wouldn't you?

The P370 memory scanner from Symbol Technologies was designed to reduce the time it takes to collect data, minimize the number of errors, and increase productivity. The bottom line is automated data collection technology will save you money.

The P370 and other data collection products available through Tessco are developed to take you where you want to go.

For more information, please visit www.tessco.com or call 800-472-7373.

Navtrak Mobile Manager

With Navtrak's web-based Automatic Vehicle Location system a company can monitor its mobile work force in real time, on a map. View up-to-the-minute reports on where a vehicle has been and where it has stopped along the way. Vehicle information is transfered to Navtrak's server using Global Positioning System (GPS) technology combined with a Wireless Data Network.

TESSCO TECHNOLOGIES®

30-Day Risk-Free Purchasing

Try TESSCO's risk-free purchasing program, designed to give you the opportunity to explore new products without risk.

If for any reason, you are unhappy with a purchase, you may return it within 30 days of receipt. TESSCO will give you a money-back refund or full credit toward another purchase.

TESSCO's 30-day return policy extends to all items except special order or value-added items, which are eligible only if defective.

Qualifying for the risk-free purchasing benefit is easy:

1. Return all items within 30 days after receipt.

2. Return all items in original condition and packaging, freight prepaid.

3. Enclose a return form (found on the back of your packing list) with all items.

After following these three simple steps, TESSCO will award you a refund or full credit toward a future purchase.

Take advantage of TESSCO's 30-day risk-free purchasing today and explore new products with confidence.

TESSCO
TECHNOLOGIES®

Financing Solutions Go Way Beyond Open Terms

TESSCO's financing is collaborative, flexible and specific to your unique business needs. We're committed to providing timely and sufficient financing to minimize interruption in flow of products and services to you!

Open Terms

Our credit-granting process is simple and timely!

NEW!
TESSCO Extended Payment Terms

Take advantage of your good credit history to leverage your short-term financing needs.

- Available terms of 3, 6, 9 or 12 months
- Low fixed-interest rates
- Ability to budget fixed monthly payments
- Keeps existing lines of credit free
- Quick turnaround time

Joint Purchase Order Program

Increase your business credit capacity by leveraging your customer's credit-worthiness to secure a higher credit line for bigger purchases. Your customer issues a joint purchase order to both you and TESSCO, using TESSCO's remittance address. Your customer pays TESSCO directly, and you will be reimbursed within 24 hours. Your margin and your customer relationship are protected.

TESSCO® Platinum MasterCard

Receive deferred billing on all TESSCO purchases charged to your TESSCO® Platinum MasterCard. To learn more about many great benefits, click on **www.tessco.com/account/credit/mastercard** and mail your completed application to Business Lending Processing Center, PO Box 15973, Wilmington, DE 19885-5973.

Equipment Leasing Program

Balancing your company's cash flow can be a lot easier through leasing. Get financial flexibility and conserve bank lines for working capital, really important now for small- and medium-sized businesses. TESSCO offers a full range of leasing

options with fast turnaround time, easy documentation, competitive rates, and affordable monthly payments! Contact **410-229-1176** or **leasing@tessco.com.**

Dealer & Reseller Financing

- End-of-the-month invoicing
- Escrow agreement for major deals
- Net 60 PO financing for special projects
- Third-party financing...it's your deal, but we take the credit risk, invoice your customer, and collect.
- Third-party leasing for reseller's customers

Enhanced Credit Capacity

Grow your business with the help of your personal credit. If your business is new and your business credit is not yet established, TESSCO will extend credit to your business through your personal guarantee.

3-Payment Plan, No Interest for 90 Days

Purchase equipment with three equal payments with the TESSCO® Platinum MasterCard.

Rental

TESSCO has broad offerings of test equipment available for established customers to satisfy short-term equipment needs.

EFT (Electronic Fund Transfer)

Simply provide pertinent bank information and your transaction will be processed by fast, efficient and secure electronic payment. You can also initiate EFT by completing our brief online form.

Bank Letter Of Credit

A letter of credit from a financial institution is accepted for purchases with special conditions agreed to by all parties.

Credit Card

TESSCO accepts credit cards, including American Express, Discover Card, MasterCard, and Visa.

Contact our financing experts at ct@tessco.com or call 410-229-1395

ner receive antenna covers the UHF & 800 MHz bands. led ABS base mounts on orola style mounts.	This tri-band antenna covering 150-165, 450-470, & 806-940 MHz bands is ideal for Public Safety applications when the user needs multiple bands but also needs to limit antenna installations. In addition the NMO150/450/800 can be used as a scanner antenna or for the Ham bands.	Unity gain scanner receive antenna. For VHF, UHF and 800 MHz. Commercial grade receive only antenna for the off-duty public safety professional.	Rooftop or deck mount antenna for permanent, professional applications requiring optimum multi-band reception. 3/8" mount.

Centurion Mercury

461378

Centurion Mercury tri-band telematic interior mounted antennas enhance cellular/PCS phone performance and provide vehicles with GPS tracking capabilities in a "stealth" installation that is durable and visually appealing. The antenna's small, enclosed housing allows for a longer lifespan and easier transfer between vehicles. The hidden mounting also prevents tampering. Can be mounted below any non-metallic horizontal surface. No mounting devices are included.

Covert Dual Band

The CVX series 5-volt cellular/GPS antennas uses double-sided mounting tape for securing to a surface. Typical installations include inside a taillight, hidden in the back deck of a car, or simply on a dash. For optimum performance they should be mounted away from metal objects which might interfere.

2.4 GHz Rooftop, Mag, Trunk Lip [360-61]

SB2400 Series

The flexible blade antennas for 2.4 -2.5 GHz feature a unique conformal design making it an ideal solution for applications where a traditional whip antenna is not practical. The SB utilizes printed circuit technology to provide gain and superior impedance bandwidth. Includes RG-174 cable and adhesive tape to mount the antenna.

urion High Efficiency Antennas

Centurion high efficiency antennas feature an inner coil for 30% increase in performance. Available connectors include: "SFK" for Kenwood TK-90 series, TK-80 series, 60G and 70G radios; "MX" for Motorola GP300/ 350, Kenwood TK-353/ 360, GE Monogram, and Vertex VX500; "SF" for Motorola STX, MTX800/ 8000/ 9000, MT2000, MTS2000, and Visar; "SFU" for King and Uniden 800 MHz and newer VHF/UHF radios.
